In theoretical physics and mathematical physics, analytical mechanics, or theoretical mechanics is a collection of closely related alternative formulations of classical mechanics. It was developed by many scientists and mathematicians during the 18th century and onward, after Newtonian mechanics. Since Newtonian mechanics considers vector quantities of motion, particularly accelerations, momenta ...

Intelligence To be intelligent you first have to know what being Intelligent is. And you also have to know what being ignorant is. Ignorant is just another word for "Not knowing". But not knowing is not always obvious or clearly understood. That's because learning is not fully understood. The more you learn the more you should

realize what you didn't know.
