Sauereisen Third-generation manufacturer of corrosion-resistant materials. We've come a long way since 1899, when C. Fred Sauereisen developed the first Sauereisen high-temperature adhesive cement that was used within practically every automobile manufactured in the US (and is still popular for high temperature adhesive applications).

A road surface or pavement is the durable surface material laid down on an area intended to sustain vehicular or foot traffic, such as a road or walkway. In the past, gravel road surfaces, cobblestone and granite setts were extensively used, but these surfaces have mostly been replaced by asphalt or concrete laid on a compacted base course. Road surfaces are frequently marked to guide traffic.

Renovation (also called remodeling) is the process of improving a broken, damaged, or outdated structure. Renovations are typically either commercial or residential. [citation needed] Additionally, renovation can refer to making something new, or bringing something back to life and can apply in social contexts. For example, a community can be renovated if it is strengthened and revived.
