Proposed Syllabus For B.Tech Program in Materials Science

Characterization, when used in materials science, refers to the broad and general process by which a material's structure and properties are probed and measured. It is a fundamental process in the field of materials science, without which no scientific understanding of engineering materials could be ascertained.

Characterization (materials science) - Wikipedia

Romantic science vs. Enlightenment science. As the Enlightenment had a firm hold in France during the last decades of the 18th century, so the Romantic view on science was a movement that flourished in Great Britain and especially Germany in the first half of the 19th century.

Romanticism in science - Wikipedia

Why Take a Science Course? In CTY science courses, students rediscover the world around them. They learn to ask questions and are challenged to explain their observations. Students develop their own theories, then test and refine them through experimentation. They also share their results with each ...
