Rail terminology is a form of technical terminology. The difference between the American term railroad and the British term railway (also used by other English-speaking countries outside the US) is the most obvious trans-Atlantic difference in rail terminology (see usage of the terms railroad and railway for more information). There are also others, due to the parallel development of rail ...

1. Harold Wilensky put it baldly and succinctly: "Economic growth is the ultimate cause of welfare state development." Harold Wilensky, *The Welfare State and Equality* (Berkeley: University of California Press, 1975), p. 24. 2. Thus, Flora and Alber find no correlation between levels of industrialization and social insurance programs of 12 European nations between the 1880s and the 1920s.
