Hyperelastic bone: A highly versatile, growth factor

Despite large investments in drug development, the overall success rate of drugs during clinical development remains low. One prominent explanation is flawed preclinical research, in which the use and outcome of animal models is pivotal to bridge the translational gap to the clinic.

Animal models in translational medicine: Validation and

Translational Science Journal is an open access journal with comprehensive peer review policy and a rapid publication process. JTS is a novel journal that will focus upon the translation of cellular, molecular, and genetic pathways into clinical strategies for multiple medical disciplines.

The first Nobel Prize in Physiology or Medicine was awarded in 1901 to the German physiologist Emil Adolf von Behring. Behring's discovery of serum therapy in the development of the diphtheria and tetanus vaccines put "in the hands of the physician a victorious weapon against illness and deaths". In 1902, the award went to Ronald Ross for his work on malaria, "by which he has shown how it ...

Berberine (BBR), an active ingredient from nature plants, has demonstrated multiple biological activities and pharmacological effects in a series of metabolic diseases including nonalcoholic fatty liver disease (NAFLD). The recent literature points out that BBR may be a potential drug for NAFLD in both experimental models and clinical trials.

Evidence-Based Complementary and Alternative Medicine

Accreditation In support of improving patient care, Indiana University School of Medicine is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.
